

Trim 2 Fit

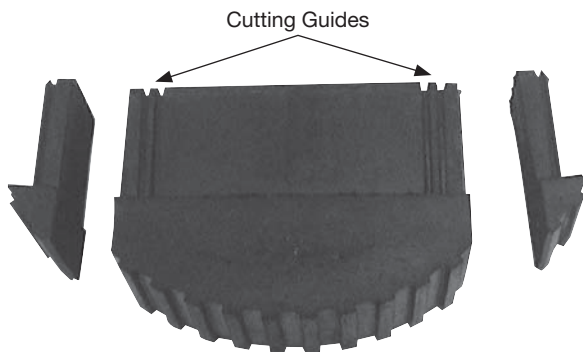

The **Trim 2 Fit** replacement ladder feet are made from solid rubber and are already marked with cutting guides for the following ladder sizes.

Box Section External Measurements

89mm x 25mm; 84mm x 25mm; 73mm x 25mm;
64mm x 25mm; 58mm x 25mm

Fitting Instructions

First remove old feet from your ladder before cutting the **Trim 2 Fit** replacement ladder feet. Offer up the **Trim 2 Fit** replacement ladder feet to your ladder and see which cutting guides correspond to your ladder's INTERNAL measurements, then carefully cut down *both* cutting guides. For best results use either a Tenon Saw or Hack Saw. For your own safety we do not recommend using craft knives, etc. Tap your **Trim 2 Fit** into your ladder and finally secure the new feet with the self-drilling screws provided.
