# Picking Problem Solved for High-End Garden Furniture Company

**A**t Ladderstore we are contacted by a lot of retailers with warehouse and logistical requirements. Mainly requiring access to high racking locations in areas with space limitations. Supremo is one such company.

Supremo are a family run, high-end garden furniture company based in Telford, supplying directly to garden centres. A set of Klime-ezee Warehouse Steps solved their stock access issue.

*“The steps solved our warehousing issues mainly due to us not having anything like this in place and having only a fork lift to bring down stillages”* said John at Supremo.

*“We pick whatever item is required with a fork lift and then lift the stillages back into place. The warehouse steps have been a god send due to the time it now takes being reduced.”*

The Klime-Ezee Industrial Mobile Warehouse Steps have a fully welded heavy duty steel construction making these steps suitable for all warehouse, retail, commercial, office, construction and even military applications. Fitted with retractable castors and 200 mm diameter rear wheels with a side handle/central bar braking system.

*“Customer service and overall lead time to receive ladders was outstanding considering they were made to order and not held as stock. Price wise, Ladderstore was very competitive and I would have no issues what so ever in recommending them to my business contacts should they ever require a solution to their warehousing access issues.”*

**If you would like to find out more about our range of Warehouse Steps or would like to discuss your requirements, call Jacky on 01204 590 232 or email [jacky@ladderstore.com](mailto:jacky@ladderstore.com)**
